RE: **America Recycles Day**

ISSUE

Commissioner Holian is seeking approval of a proclamation recognizing November 15, 2012 as America Recycles Day.

BACKGROUND

Santa Fe County and the City of Santa Fe County have worked in recent years to increase recycling for a number of reasons. But recycling in our area could be greatly increased. That would possibly extend the life of our Caja del Rio Landfill as well as save money for the taxpayers.

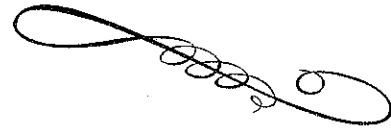

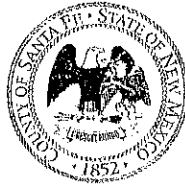

Right now the County only directly handles recyclables through the Transfer Stations where there is free disposal of those items. The recyclables are taken to the Buckman Recycling and Transfer Station that is operated by the Solid Waste Management Authority where they are separated and bundled for transport to places of sale. The County does not receive the money for the sale of recyclables. Rather SWAMA receives the income and uses the money to defray the costs of dealing with the recyclables.

However, the more that solid waste is recycled, the more that the County saves money in tipping fees at the landfill. So it is not only good for the environment to recycle, but it is also a cost-saving measure for the residents of the County. In addition, recycling paper, plastic, glass, and aluminum cans can save water, energy, and other materials used to make those products.

It is important to educate our community on the benefits of recycling, and therefore we recognize America Recycles Day.

RECOMMENDATION

Commissioner Holian seeks board approval of a proclamation recognizing November 15, 2012 as America Recycles Day.

Santa Fe County Proclamation

Introduced by Commissioner Kathy Holian

**RECOGNIZING NOVEMBER 15, 2012 AS
AMERICA RECYCLES DAY IN SANTA FE COUNTY**

WHEREAS, the recycling rate in Santa Fe County is only one-third the national average (11% vs. 33%);

WHEREAS, the sale of recycled commodities helps to support our Caja del Rio Landfill and materials processing facility at the Buckman Road Recycling and Transfer Station (BuRRT);

WHEREAS, more recycling will extend the life of the Caja del Rio landfill, providing future savings;

WHEREAS, BuRRT is operating at only half of its design capacity;

WHEREAS, higher levels of recycling by our residents, businesses, and institutions would provide BuRRT with more feed stock yielding greater revenue to the community;

WHEREAS, recycled commodities are made into new useful products and reduce the use of natural resources, water, and energy;

WHEREAS, recycling offers more job opportunities than landfilling;

WHEREAS, burying useful resources in a landfill is wasteful, costly, and produces greenhouse gases;

WHEREAS, community leaders must spread the word about the excellent recycling programs that have been established in Santa Fe County, the growth of markets for recycled materials, and the importance of buying recycled products.

NOW THEREFORE, BE IT RESOLVED, that we the Board of the Santa Fe County Commissioners recognize observance of

"November 15, 2012 as America Recycles Day in Santa Fe County"

and we urge all members of the community this observe this Day by committing to starting or increasing recycling, reducing waste, and using products made from recycled material in every way they can.

APPROVED, ADOPTED AND PASSED ON THIS 13th DAY OF NOVEMBER 2012

RE: **The Healthy Kid, Healthy Economy Program**

ISSUE

Commissioner Holian is seeking approval of a resolution in support of a Healthy Kid, Healthy Economy Program.

IMPORTANT FACTS

- More than 1 in 4 children in New Mexico are considered food insecure and many depend on school meals for their main meal of their day. ³
- There are close to 345,000 New Mexico children who have the potential to benefit from participating in the school lunch program. ⁴
- The new USDA federal rule, based on legislation, and requiring more servings of fruits and vegetables, is estimated to cost an additional 10 cents for each reimbursable lunch, and 27 cents for each reimbursable breakfast. Yet, the anticipated Federal share for this food cost is \$.06 per meal. ⁵
- The school meal programs will comply with the new rules but they will need funds if they are to purchase local New Mexico fruit and vegetables.
- This is a win-win for New Mexico—as the market develops for New Mexico-grown produce in schools, fruit and vegetable growers' incomes will rise and our children's overall health and academic performance will improve.
- Currently, over thirty-five school districts purchase New Mexico-grown produce. This number has tripled in 2012. ⁶
- Since last year, the number of New Mexico fruit and vegetable producers selling to schools has doubled from 20 to 40. This is a significant and expanding market for New Mexico farmers. ⁷

- If every student in New Mexican schools ate two servings of New Mexico-grown produce per week, about six million dollars would go to New Mexico producers. (344,000 students x 74 servings [2 per week x 37 weeks] x .25 cents per serving)⁸
- This year, Congress enacted the Farm to School Competitive Grants Program, providing over \$3 million annually to Farm to School Programs nationwide.
http://www.fns.usda.gov/cnd/f2s/f2_2012_grant_program.htm
- In the 2008 Farm Bill, food service directors were given the ability to apply a geographic preference, allowing them to prioritize buying from local and regional farmers.

Please see below the 2013 Legislative Briefing Sheet-

HEALTHY KIDS—HEALTHY ECONOMY

School Meals Using New Mexico-Grown Produce

2013 Legislative Briefing Sheet

Sponsors: Senator Pete Campos, Representative Ray Begaye

Funding Request: \$1.44 million

A funding investment to:

- 1) Purchase New Mexico-grown, fresh from the farm, fruits and vegetables to provide children with school meals that will encourage them to eat nourishing food for the rest of their lives.
- 2) Improve school meal programs by providing more New Mexico-grown fruits and vegetables while assisting schools in meeting new federal rules.
- 3) Strengthen New Mexico's farming economy and agricultural legacy by increasing market opportunities for small and mid-scale producers across the state.

What Legislative Funding Can Do:

For our Children

- The purchase of New Mexico-grown fruits and vegetables will enhance the diets of school children, promoting healthier lifestyles and increasing academic achievement. Studies show healthy nutrition improves child well-being and learning ability. ¹
- Stem the rise in childhood obesity in New Mexico and help to save the state an additional \$324,000 in obesity related health care expenses. ²

For our Schools

- School meal programs will have the budget to purchase local produce from New Mexico farmers.
- School food service directors will be in a better position to comply with recent federal rules requiring more servings of fruits and vegetables in the school meals.

For our Farmers and the Economy

- An emerging agricultural sector in New Mexico—small and medium size fruit and vegetable farmers—will gain a new market and increase their chances to stay on the land.
- The new federal school meal rules—and their emphasis on fruits and vegetables—will help develop a strong market for New Mexico farmers as well as enhance rural economies.

For our State

- Increasing economic farming opportunities will help to maintain family farming and conserve the unique heritage and cultural traditions of New Mexico.

Without Legislative Funding:

- There will be fewer opportunities to curb childhood obesity and other illnesses through an improved diet for children, rich in New Mexico-grown, fresh fruits and vegetables.
- School meal programs may not have the budget to purchase locally grown produce from New Mexico farmers.
- New Mexico will lose a critical opportunity to improve the rural sector and give a boost to the state's economy.

RECOMMENDATION

Commissioner Holian seeks board approval of this resolution in support of a Healthy Kid, Healthy Economy Program.

THE BOARD OF COUNTY COMMISSIONERS
OF SANTA FE COUNTY

RESOLUTION NO. 2012-_____

RESOLUTION IN SUPPORT OF A HEALTHY KID, HEALTHY
ECONOMY PROGRAM

WHEREAS, approximately thirty percent of kindergarteners and almost thirty-nine percent of third graders in New Mexico are considered overweight or obese;

WHEREAS, the National School Lunch Program (NSLP) makes it possible for school children in the United States to receive a nutritious lunch every school day;

WHEREAS, 345,000 children participate in the school lunch programs throughout New Mexico and more than 228,000 of those children are eligible to participate in free or reduced-price school meal programs;

WHEREAS, the NSLP provides a reimbursement of \$2.86 for free lunches and \$2.46 for reduced-price lunches;

WHEREAS, local school meal programs will see an average increase in the cost of food equivalent to \$.25 to .75 per meal, while there will be a minimal NSLP increase of \$.06 reimbursement per meal;

WHEREAS, the healthy kid, healthy economy concept promotes the purchase of New Mexico fruits and vegetables for school lunch programs in order to enhance the diet of school children and help school meal programs comply with new Federal rules that require additional servings of fruits and vegetables in school lunches;

WHEREAS, there is an emerging agricultural sector in New Mexico comprised of small and medium size fruit and vegetable farmers, who can respond to this new food "market" for local produce in the school meal programs;

WHEREAS, increased funding from the state legislature will enable school meal programs and local school districts to purchase New Mexico grown produce and serve more fresh fruits and vegetables to our children for their health and well-being;

WHEREAS, increased funding from the state legislature for school meals programs also supports economic development and opportunities for our local farmers;

WHEREAS, increase funding would assist school children and farmers in the City and County of Santa Fe.

NOW, THEREFORE BE IT RESOLVED that the undersigned respectfully request that the state legislature appropriate \$1.44 million to support the purchase of locally grown fruits and vegetables for school lunches.

PASSED, APPROVED, and ADOPTED this 13th day of November, 2012.

MEMORANDUM

Date: November 13, 2012

To: Board of County Commissioners

From: Penny Ellis-Green, Assistant County Manager 

Subject: Appointment of Elizabeth Salinas as County Department Member to Serve on the Santa Fe City and County Advisory Council of Food Policy

Background

Established in early 2009, the City of Santa Fe Council and Santa Fe County Board of County Commissioners approved a joint resolution to establish the Santa Fe City and County Advisory Council on Food Policy (SFFPC). Two staff members, each from the City and County government, were appointed, as well as nine persons from the private sector to carry out the duties and responsibilities of the SFFPC.

Mr. Duncan Sill, the Santa Fe County Department Member, is no longer employed with Santa Fe County.

Issue

A new County Department Member needs to be appointed to the SFFPC. Ms. Elizabeth Salinas, Community Planner for the Land Use Department is recommended to fill this position as Ms. Salinas is actively engaged in critical issues as it relates to Santa Fe County's communities and for sustainability of a food system supply for all residents. Ms. Salinas' resume is enclosed for your reference.

Recommendation

Staff recommends approval of the Appointment of Elizabeth Salinas to serve on the Santa Fe City and County Advisory Council of Food Policy.

Attachment

Resume of Ms. Salinas is attached.

MISSION

My interest in serving on the Food Policy Council extends from a deep-seated appreciation of the importance of food systems to the state's heritage, public health, and economy. Santa Fe County's Community Planning Program has a strong record of working with communities to preserve local food production and markets as a way of increasing their self-sufficiency and promoting the health of the broader region. By serving on the Food Policy Council I hope to learn new strategies for preserving acequias, agricultural lands, and harvest traditions to bring back to Santa Fe County's community planning partners. I also hope to contribute lessons learned from Santa Fe County's Community Planning Program to the Council.

EXPERIENCE

Florida Department of Economic Opportunity (Successor Agency to Florida Department of Community Affairs) Planner II, Waterfronts Florida Program, A program that provides grant funding and technical assistance to local governments to preserve working waterfronts through community planning.

June 2009 – May 2012

- Helped develop an award-winning vision plan for working waterfront preservation in Panama City, FL.
- Reviewed and provided feedback on comprehensive plan and zoning policies for the City of St. Marks, the City of Panama City, Brevard County, St. Johns County, and Santa Rosa County.
- Managed a \$68,000 project to develop methods for identifying strengths and weakness of maritime infrastructure networks and policy frameworks.
- Successfully applied for a \$75,000 National Oceanic and Atmospheric Administration 306A grant.
- Handled all reporting for 5 federally-funded grants.
- Handled all budget requests and tracking for the Waterfronts Florida Program.
- Planned and helped facilitate 5 two-day training events on waterfront revitalization for local governments across Florida.
- Served on the application review committee for Florida Main Street community designations and Florida Boating Improvement Program grant awards.
- Served as the Florida representative to the South Atlantic Alliance Working Waterfront team.

Mote Marine laboratory, Research Intern

May 2008 – December 2008

- Researched and reported on best practice sea level rise adaptation strategies.
- Coordinated with and reported on meetings associated with the Sarasota Bay Estuary Program's update of its Comprehensive Conservation and Management Plan.
- Helped facilitate community focus group meetings to address red tide.

Date: October 30, 2012

Subject: Appoint Marcial Valdez to the Nambe Community Center Committee

Issue:

At this time there are five (5) community members who have expressed interest and submitted an approved application to be appointed to the Nambe Community Center Committee by the Santa Fe Board of County Commissioners (BCC). The volunteers that are being processed for approval will be charged with oversight of the Nambe Community Center. When this community center committee is fully appointed the member's terms will expire on June 30, 2015, and two (2) member's term will expire on June 30, 2014.

Background:

Santa Fe County Senior Services Program staff has hand posted flyers, advertised in the newspaper, and talked with local residents to recruit interested individuals to serve as community center committee members. The prospective member has submitted the required forms. The policies and procedures for oversight of community events at the Nambe Community Center are outlined in Resolution 2008-89.

Staff Recommendation:

Staff recommends that the BCC appoint Marcial Valdez to the Nambe Community Center Committee.

Staff recommends that the BCC appoint Dennis Ortiz to the Nambe Community Center Committee.

Ron Pacheco,

It has come to my attention that there is a board member position for the Nambe community center. I respectfully ask that that I be considered as a board member for this community center. I am currently an Alternate Crew Chief of Accelerator Operations at Los Alamos Neutron Science Center. I graduated with a certificate in Electro Mechanical Technologies from the University of Los Alamos, and soon after completed the qualification program for operating an 800 MEV particle accelerator. As a steward in my community I have held many positions. In my church I have acted as both a Sunday school youth instructor and a Mayordomo for Nuestra Senora de Guadalupe church in Pojoaque. I am also currently an active volunteer for the habitat for humanity restore in Española assisting them with sales productivity. If chosen as your board member for the Nambe community Center I will bring with me a multitude of professional skills which I believe would be useful in helping the county of Santa Fe in its goal to make the Nambe community center successful in its operations.

Dennis Ortiz
