

Camilla Bustamante
Santa Fe County
Commissioner
District 3

With over 25 years in education, training and community advancement, Camilla Bustamante has led and participated in regional and community planning, educational and economic program development and assessment. As an academic dean, project coordinator, team leader, trainer, and educator, she has developed and managed budgets for academic, state, and federal agencies to address both normal and off-normal events in the interest of community resilience and sustainability and served at the operations level for environmental health emergency response during Katrina, the Cerro Grande Fire and others. Commissioner Bustamante is community oriented and places an emphasis on environmentally healthy, community-based education and economic development.

Professionally, Commissioner Bustamante has dedicated her career to public health and higher education, through traditional sustainability and the hope for providing citizens and students the tools needed to improve their quality of life – for themselves, their families, and their communities. With concentrations in the areas of environment, health, and safety she gained knowledge working with others during the Cerro Grande Fire, addressing pollution, and hazard mitigation at LANL. Feeling called to train more Nuevo Mexicanos to work on the environment, she transitioned to higher education where she started and supported programs in both traditional practices and in cutting edge technologies that prepare our communities for the future.
